I know we are quite a ways out, but if you can estimate the week of arrival for planning purposes, that would be great. Thanks. - Nardina

Subject: Patterson St Canisters

Nardina,

Can you give me an idea of when we will receive the air/soil gas canisters/flow controllers for Patterson St? We'll be using electronic forms for this project and I'd like to have the canister and flow controller numbers in drop-down lists. It would be great if we could get the canisters/flow controllers at least a week before the event.

Thanks,

Quinn
